To whom it may concern

Reference Letter – Calabash Trust

We at Hella Automotive SA PTY Ltd, are very pleased to be associated with Calabash Trust.

Our funds were used to contribute towards WB Tshume Schools Permaculture Process. The process at Tshume is part of a pilot study to create more sustainable models of community development, which is community driven.

The outcome of this process is remarkable, the school will be able to feed more children on a daily basis, and they provide business opportunities (growing of seedlings, sales of surplus food harvest) and uplifting the community.

Calabash Trust kept us up to date and informed us with the progress of the project. We were also invited for site visits.

They are passionate and create a positive impact on the community.

We would highly recommend Calabash Trust.

I trust that the information provided will be of help and assistance.

Kind regards
